Connecting and Growing Together to Better Assist Children in Urban Schools

Our Mission

USPN's mission is to provide professional development, consultation, and networking resources to mental and behavioral health professionals in urban education settings.

Our Members

USPN members come from a variety of backgrounds:

- ✓ school social workers
- ✓ school counselors
- ✓ school psychologists
- ✓ other mental and behavioral health professionals in urban schools (K-12)

About Us

In an ever-changing society, it is imperative for mental and behavioral health professionals to remain current. Support and networking are necessary to meet the increasing mental health needs and professional expectations within the school environment. Consulting with other professionals in a confidential setting enhances one's skills and abilities. In order to foster student success, a team approach is most effective.

Unfortunately, professionals providing mental and behavioral health services in urban, non-public schools are often isolated and without collegial partnerships. For these reasons, the Urban School Professional Network was formed.

Membership Benefits

In addition to numerous networking opportunities, USPN members receive access to the following:

- ✓ Case Consultation
- ✓ Support for School Policy Development
- ✓ Updates on DPI Standards
- ✓ Accountability for Best Practice
- ✓ Assistance with PI34 Requirements
- ✓ Community Resources
- ✓ Presentations by Community Experts
- ✓ Materials and Tools to Enhance Skills
